

**HOLFIN**  
INSURANCE BROKER

---

## **PUBLIC LIABILITY INSURANCE**

**Accidents happen – but they don't need to hurt your business**

If someone is accidentally injured in your workplace, or if his property is accidentally damaged due to your activities, your company could suffer severe financial consequences.

If your business comes into contact with members of the public (e.g. clients, visitors), it's likely you'll decide you need public liability insurance. This insurance covers your company for the risk of being obliged to pay compensations for injuries or damages caused to third parties.

Use an experienced broker to get the quality cover you need. Use our services. We can build tailor made policies around your unique needs and work with major insurance providers to acquire the appropriate cover at competitive quotes

### **What does Public Liability insurance cover?**

The insurance can protect you against various unforeseen events, from small workplace incidents, to costlier accidents that could really hurt your business. Policies vary from insurer to insurer, but most public liability policies cover you for:

- incidents that occur on your business premises
- incidents that take place off-site, at events or activities organized by your company

The insurance protects you against compensations and defending costs up to the level of the cover you select.

### **Why you need Public Liability insurance?**

Public liability insurance protects your business against claims made by third parties to cover their damages. So whether it's a minor incident or a serious accident that could have a significant financial impact, the public liability insurance gives you the extra peace of mind you need.

Without a robust Public Liability insurance, you may face huge legal bills, with a direct impact on your business.

### **What can we do for you or your business?**

- ✓ Provide you with free and impartial specialist advice concerning risk management and cover options
- ✓ Provide you with the right insurance product which best suit your specific needs, helping you to:
  - ✓ Minimise your exposure to risk
  - ✓ Save your time and money
