
SERVICE PROVIDER LIABILITY INSURANCE

Regardless your area of expertise you may be accused in connection with your services

Without any doubt, as a service provider, you perform to best meet the expectations of your clients. Despite your efforts there is still a chance that something could go wrong. If your services cause injury or damages to your clients or someone else you face the risk of being sued. You may be sued even for unjustified reasons.

Use an experienced commercially-minded broker to get you quality cover when you need it most. Use our services.

What does Service Liability insurance cover?

Service Liability insurance protects against claims for personal injury or property damage arising from services provided by your business.

The insurance is useful for any type of service contractors (IT services, car repairing, electricians, plumbers, etc.). If your services cause damages to your clients it is likely they'll seek compensation through the courts.

The main purpose of Service Liability insurance is to cover legal costs and damages.

Why you need Service Liability insurance?

If you're a service provider, regardless the area of your expertise, the service liability insurance is a wise choice.

Sometimes claims will be justified, others spurious. Either way, they can end up costing you a lot of money. Unwarranted claims still need to be taken very seriously – your company's reputation and brand value is under threat.

Without robust Service Liability insurance, you may face huge legal bills, with a direct impact on your business.

What can we do for you or your business?
