## **PUBLIC NOTARY PROFESSIONAL LIABILITY INSURANCE**

**The smallest, most innocent mistake can be very costly. Moreover, even if you made no errors, you could easily be accused of making a mistake.**

As a public notary, you provide important services to the community. Your clients depend heavily on you knowing exactly what needs to be done. Any mistakes in the process can lead to legal problems and monetary losses for all parties involved.

Getting sued would be seriously damaging, to both your reputation and personal financial wellbeing. That's why it's important for you to carry notary professional liability insurance. Use an experienced broker to get you quality cover when you need it most. Use our services.

### **What does Professional Liability insurance cover?**

This insurance protects you from financial repercussions if you are sued by a client for errors, mistakes or omissions arising from the practice of notary services.

Professional Liability insurance covers the cost to defend lawsuits against you, as well as any settlements or judgments that arise out of your mistakes, in the normal course of your professional activity.

### **Why do you need Professional Liability insurance?**

Every day notaries public face the risk of legal action being taken against them in respect of their professional liability. The indemnities that may be made as a result of a successful claim can be huge but even the legal costs of defending the most spurious claim can cause severe financial hardship.

This insurance is designed to protect you from suffering financially if you make a professional mistake when performing your notary services. Even if you do not make a mistake, this insurance protects you when customers claim that you did.

Do not forget – the peace of mind is something which you cannot put a price on.

### **Common causes for Professional Liability claims against notaries**

Common causes for professional indemnity claims include mistakes or omissions in the notarized documents, losing or destroying original documents, failing to require personal appearance and to properly identify the signer, affixing a notarial seal incorrectly, etc. Any mistake made by you, that causes damages to a client, is a possible cause of a professional indemnity claim.

### **What is the limit of liability?**

An important choice for your professional liability insurance is the limit of liability. The limit of liability is the maximum that the insurance company will pay in the event of a claim. The higher the limit of liability, the higher your insurance premiums will be.

## HOLFIN INSURANCE BROKER

When purchasing a professional liability policy, you also should consider the deductible associated to the insurance product. The deductible is the amount of a claim you are responsible for paying before the insurance company's coverage takes effect. Deductibles are a form of risk sharing, and provide a financial incentive for you to take actions to reduce the risk of professional indemnity claims.

### What can we do for you or your business?
