

COMPREHENSIVE CAR INSURANCE (CASCO)

With the Comprehensive Car Insurance your company will be covered for damages caused to your own vehicles

Motor third party liability insurance is mandatory for all vehicles. In the event of an accident, it covers all personal injuries and any property damage suffered by the third party.

Motor liability insurance alone is not enough to protect your vehicle against damages caused by a traffic accident produced from your fault, or damages caused by theft or severe weather.

For such damages, you need a voluntary comprehensive motor vehicle insurance.

Whatever vehicles you have in your fleet, you want to keep them protected. With us, you will always get more than you bargained for. In partnership with major insurance providers we work to acquire the appropriate cover at very competitive quotes. Choose us for comprehensive insurance and you will be covered against loss or damage from almost any causes. These can include theft, accidents, severe weather and even intentional damage caused by someone else.

What does Comprehensive Car Insurance cover?

Comprehensive motor vehicle insurance varies, depending on the level of cover you choose – the more extensive the option, the better the coverage against different losses.

The best comprehensive motor vehicle insurance covers against traffic accidents, collisions, theft, vandalism, fire, storm, flood, driving off the road, and damage to the car in indoor car parks, among many other things.

The Comprehensive Car insurance often is not cheap, this is true. However, going for a lower level of cover just to save money, might be a false economy. Having the minimum level of cover means that you might end up paying out more in the long run.

Why you need a Comprehensive Car Insurance?

With the comprehensive car insurance, you can cover damages to vehicles owned by your company from accidents that are deemed to be your or yours drivers' fault. You can also be compensated when fault can not be proven or your vehicle was stolen or vandalised.

Without comprehensive cover, you take the risk to cover from the budget of your company the cost for repairs. Worse still, if your vehicle is totally damaged you assume the risk to pay in full the replacement cost.

What can we do for you or your business?

- ✓ Provide you with free and impartial specialist advice concerning risk management and cover options
- ✓ Provide you with the right insurance product which best suit your specific needs, helping you to:
