## **HEALTH INSURANCE**

**Do not make any compromise when it is about your health.**

**Get a health insurance before you need it.**

Before anything else, your health is the most important thing. Without good health, you have nothing! You cannot develop in the other areas of your life if you your health will not allow you to devote enough energy to those things.

Every part of your life relies on you having good health. That is why you should protect yourself with a health insurance, perfectly adapted to your needs. Health insurance covers the costs of private healthcare, from prevention phase to medical treatment.

The insurance covers the cost of treatment for acute conditions that develop after your health insurance policy has begun.

It can be difficult to know what to look out for when you are choosing a health insurance. The level of coverage you need will depend on your lifestyle and the areas of your health you are most concerned about.

You will also need to consider the budget you intend to allocate for this. Moreover, you should think if you want an individual insurance or you will consider to cover your family members, as well. This is why, comparing different health insurance policies can be useful, allowing you to make an informed decision regarding costs and coverage level.

Partnering with us brings peace of mind that your health is in right hands. We invest time to understand your needs and deal with major insurers which are familiar with this type of insurances. Together, we build tailored solutions that align with your unique needs.

### **What does Health Insurance cover?**
